

SENSES 2 ORDER FORM

Date:	
Account Name or Account Code:	
Order Placed by:	
Your Order Ref:	
You will be invoiced to your account address, please request if it is a different invoice address.	
Delivery will be to your invoice address unless you request a different address.	

NOTES	
✓ Bay,matched, same room	If you have blinds in a row or a bay please tick (✓) NOTE: To line up you must have same size drop
Exact, Recess, Fabric Size*	Recess is always best size to provide (Recess we take 10mm off width, 5mm off drop) Exact (Blind Size). Fabric size we would prefer not to do on double roller as the bottomrail will be bigger and it can cause issues Skirtings, in between gaps or 2 in one etc. We will not make without a drawing and measurements similar to the drawing on the right. Use special instructions or a separate sheet, the more information the better, Remember bottomrail and endcaps have to be bigger than the fabric.
Brackets**	Top Fix: NOTES: All top fix come with clear packers, please use on all top fix it makes fitting easier. Face Fix: NOTES: If fitting face fix inside recess drop them 3mm from the top of recess,makes fitting easier, 2 x sizes distance is to back panel.
Install Height	If chosen you CANNOT GIVE A LOOP SIZE, the loop will be 1500 less than install height.
Chain Type	We always use rust free stainless, we would advise to use this as we are the only UK wholesaler giving this as standard.
Loop Size***	Preferably choose the pre made loop selection, alternatively enter what size you require.
✓ Electric Motor	You can use special instructions to ask for charger and remote type etc.
Full details, specifications and images available at: https://vibefabrics.co.uk/vibe-hardware/	

Width - Exact or Recess

Any further Special Instructions	
--	--

Max width is 2600mm as standard, 2600mm - 2750mm is a special order will need discussion, may not be possible, lighter fabrics are better.
